

FLORILÈGE

Interior ceramic wallpaper

Novoceram, French manufacturer of ceramics since 1863, presents a collection white body ceramic tiles for interiors that brings back the charm of the eighteenth-century Chinese hand-painted wallpapers.

PRESS RELEASE

Florilège is a collection of white body wall tiles by **Novoceram**, French ceramics manufacturer since 1863, designed for interior wall coverings.

Florilège brings back the charm of the eighteenth-century pattern of the hand-painted Chinese wallpapers by giving them a new look: that of precious ceramic white paste.

Lively and elegant polychrome paint a tree full of floral detail and a new tactile feel that recalls the **silky softness of the fabric**; the drawing is made on a base material pure by one of the most innovative technologies of ceramic decoration that allows to obtain detail-packed pictures.

With a trendy design that adds a decorative note even to the rooms in contemporary minimalist style, Florilège can cover walls even larger due to the **modular format of 135x180cm**, and also be used in damp rooms where a wallpaper or fabric would not be usable.
