

AZIMUT

Concrete look ceramic tiles for interior and exterior floors and walls

Novoceram, French ceramics manufacturer since 1863, presents a complete collection for interior and exterior flooring in colored in body porcelain stoneware inspired by the aesthetics of concrete combined with the charm of natural clays.

PRESS RELEASE

Azimut is a collection of colored in body porcelain tiles by **Novoceram**, French ceramics manufacturer since 1863, designed for interior and exterior floor and wall coverings.

Azimut does not reproduce any specific material: months of research were required to select and mix natural **colored earths** from different regions of France and from south and center Italy. While turning these blending into graphic patterns, the surface gradually revealed new, unexpected effects and interesting elements.

Azimut is a complete collection for floor and wall coverings featuring four colors of **coloured in body porcelain stoneware for the floor** (Clair, Chaud, Froid and Foncé) each one matching with three colors of **wall tiles** (Clair, Neutre and Foncé).

Azimut is available in sizes **30x60cm, 30x60cm rectified, 45x45cm, 45x45cm rectified mosaic, 60x60cm rectified and 60x60cm Outdoor Plus (2cm thick)**, ideal for floating outdoor use.

To find out more about **Azimut** and (re)discover all the Novoceram collections, please visit our [official website](#) or join our [Facebook page](#).
