## PRESS RELEASE

**Novoceram**, french ceramics producer since 1863, proposes a broad selection of **Floors and Tiles for bathroom**, suitable for all sizes, styles and potential restraints of a moist room. Novoceram range satisfies all different decorative tastes, even the oddest ones, thanks to innovative technologies: Porcelain Stoneware floors are currently able to perfectly reproduce materials unsuitable for constant presence of water.

With its **Collection Art**, Novoceram glorifies the bathroom through the lightness and delicacy of wallpaper effect tiles **Florilège**, the elegance and style of **TrèsJouy**, inspired by Toile de Jouy cloth, and a touch of lightheartedness of **Aquarium** and **Samsara**. Basic or creative atmosphere, ultra-modern or classical style, Novoceram collections offer countless solutions and even more, thanks to the ceramic wood **Napami** and **Noa**, the concrete effect selection for walls and floors **Azimut**, the metal effect **Talm** or stone effect **Cast** and **Geo** tiles. To cover the walls, **Madras**, **Platina** and **Esprit** tiles, in **22,5 x 45cm** size, give soft and modern colours. To complete the assortment, Novoceram proposes then battens which highlight with great elegance the floor's finishings, mosaics and decorations such as **Affresco** in the **Petitot** collection, which glorify the bathroom, giving a final decorative touch.

Besides all these aesthetic qualities, the **easy maintenance** and the lack of porosity of the floors Novoceram, make them the **perfect covering for the bathroom**. It's extremely resistant to external agents such as chemicals and solvents, to stains, shocks, scratches, all indispensable features for this intended use! Great freedom of choice then to design your Bathroom, either large or small, a functional place for the maximum well-being..
