

DAX

Large format tiles with metallescent reflections

Novoceram, French manufacturer of ceramic tile since 1863, presents a collection of full body coloured porcelain stoneware tile declined in the format 120x120cm.

PRESS RELEASE

Dax is a collection of full body coloured porcelain stoneware that **Novoceram**, French ceramics manufacturer since 1863, has especially designed for interior floors.

Elegant, discreet **metallescent reflections** come to life on Dax's surface, following the harmonious shades of color in the same direction, **expanding the perception of space** as well as the dimension of tile and floor. Sober and fascinating, **Dax** is a design creation that highlights the nobility of porcelain stoneware without imitating any other material.

Dax is available in four sizes: **30x60cm**, **60x60cm**, **60x120cm** and **120x120cm**, available in four soothing tones: Dax **Titane**: a bright ivory, Dax **Acier**: a medium pure gray, Dax **Anthracite**: an intense dark gray and Dax **Oxyde**.

To find out more about Dax and (re)discover all the Novoceram collections, please visit our **official website** or join our **Facebook page**.

COMPANY CERTIFICATIONS :

- **ISO EN 9001**: standard that defines the requirements for the **company's quality management system** in order to achieve ambitious goals and to plan continuous improvements for various phases of corporate processes: customer relations, willingness to listen and talk, internal organisation, relations with suppliers and all the production processes.
- **ISO EN 14001** : standard that defines the requirements for the **environmental management system**, based on **ecological commitment** and increasingly ambitious goals in terms of process control implemented by the company in order to limit the impact of its activities on the environment and to improve its performance continuously.
- **ISO EN 50001**: standard that defines the requirements for the **energy management system**. This certification, driven by the desire to better control and optimize energy consumption, is the logical continuation of an approach of continuous improvement and ongoing environmental.

PRODUCT CERTIFICATIONS :

- **UPEC Classification** (pending <http://www.novoceram.fr/dossier-upec-tango>): allows to know the **proper intended use** of each tile following the dictates of the **ISO standards** that define the criteria for determining the resistance of the tiles to high stress, wear and tear, puncture, water, chemicals and stains.
- Novoceram products are involved in obtaining green certifications for buildings such as the commitment of the **Haute Qualité Environnementale** (High Environmental Quality) and the American **LEED** (Leadership in Energy and Environmental Design) certification. Novoceam is a member of the U.S. Green Building Council and the **HQE Association**, whose aim is to control the impact of a building on its environmental context and of promote a healthy and comfortable indoor living space. Finally, Novoceram has also commissioned the **PEF** (Environmental Performance Footprint) and **EPD** (Environmental Product Declaration) of its products, which indicate the potential environmental impact of a product along its entire life cycle. Our tiles are classified **A+**: the best level of this classification. Furthermore, being **completely free of volatile organic compounds emissions**, they even exceed the criteria required for classification A+.
