

DILEMME

Indoor ceramic wallpaper

Novoceram, French ceramic producer since 1863, unveils a collection of tiles in decorated porcelain stoneware for indoor use.

PRESS RELEASE

Dilemme is a collection of tiles in decorated porcelain stoneware that **Novoceram**, French ceramic producer since 1863, has designed for **interior floors and walls**.

This collection recalls the slightly ribbed effect of Shantung silks through its lines and three-dimensional optical effects. **Dilemme** appears as an elegant “décor mix” which is described as chic and graphic and plays on the various shades of grey.

Dilemme is available in a 60x60 cm format.

To find out more about Dilemme and (re)discover all the Novoceram collections, visit our **[official website](#)** or join our **[Facebook page](#)**.

OUR CERTIFICATIONS :

- **ISO EN 9001**: norm that sets out the requirements related to a **quality management system** that is part of a continual improvement at all levels which includes : strong customer relation and the anticipation of their needs, internal organisation, supplier relationship and production process.
- **ISO EN 14001**: norm that sets out the requirements related to an **environmental management system** based on **environmental commitment** and on strict standards and goals that the company has set to control and reduce its impact on the environment.
- **ISO EN 50001**: norm that sets out the requirements linked with **energy management systems**. This certification, driven by the wish to better control and optimise energy consumption, is the logical continuation of a continuous improvement approach and an environmental commitment.

PRODUCT CERTIFICATIONS:

- **Indoor emissions**: index which measures emissions of volatile substances posing a risk of inhalation toxicity. All our tiles are assigned A+, - the best note in the classification. Furthermore, as they do not contain Volatile Organic Compounds (VOCs), they even outperform all the requirements for the A+ classification.
- Novoceram products are involved in obtaining various ecological certifications for the construction industry such as such as the French certification **HQE** (High Environmental Quality) and the American one, **LEED** (Leadership in Energy and Environmental Design). Novoceram has also established the **PEF** (Performance Environnemental Footprint) and **EPD** (Environnemental Product Declaration) of its products which indicate the potential environmental impact of a product throughout its entire life cycle.
