

FAST

Concrete effect ceramic tile for interior and exterior floors

Novoceram, French manufacturer of ceramic tile since 1863, presents a collection of full body coloured porcelain stoneware tile characterised by a concrete effect to give a contemporary and unique touch to interior and exterior floors.

PRESS RELEASE

Fast is a collection of full body coloured porcelain stoneware that **Novoceram**, French ceramics manufacturer since 1863, has especially designed for interior and exterior floors.

A perfect balance between a **bold character and relaxing colours**, **Fast** is a tile recalling the surface of concrete, a reference material that makes **Fast** both **contemporary and unique**. Available in the version for interiors and in the non-slip version, **Fast** allows you to obtain unity **between indoor and outdoor spaces**.

The softened concrete effect of **Fast** is perfect for all **residential and commercial spaces** with a **contemporary style**, since it combines the technical advantages of porcelain stoneware with the aesthetics of concrete.

Fast is available in three sizes, **45x45** cm and **60x60** cm and the **60x60 cm Outdoor Plus** version with a thickness of 20 mm for conventional outdoor installation, for raised installation or installation on gravel. **Fast** is offered in three colours: **Fast Sable**, a beige featuring shades of grey, **Fast Gris**, a pure medium grey, **Fast Plomb**, an intensely warm grey.

To find out more about **Fast** and (re)discover all the **Novoceram** collections, please visit our **[official website](#)** or join our **[Facebook page](#)**.

Concrete effect ceramic tile for interior and exterior floors

COMPANY CERTIFICATIONS :

- **ISO EN 9001**: standard that defines the requirements for the **company's quality management system** in order to achieve ambitious goals and to plan continuous improvements for various phases of corporate processes: customer relations, willingness to listen and talk, internal organisation, relations with suppliers and all the production processes.
- **ISO EN 14001** : standard that defines the requirements for the **environmental management system**, based on **ecological commitment** and increasingly ambitious goals in terms of process control implemented by the company in order to limit the impact of its activities on the environment and to improve its performance continuously.
- **ISO EN 50001**: standard that defines the requirements for the **energy management system**. This certification, driven by the desire to better control and optimize energy consumption, is the logical continuation of an approach of continuous improvement and ongoing environmental.

PRODUCT CERTIFICATIONS:

- **UPEC Classification** (pending www.novoceram.fr/dossier-upec-fast) : allows to know the **proper intended use** of each tile following the dictates of the **ISO standards** that define the criteria for determining the resistance of the tiles to high stress, wear and tear, puncture, water, chemicals and stains.
- Novoceram products are involved in obtaining green certifications for buildings such as the commitment of the **Haute Qualité Environnementale** (High Environmental Quality) and the American **LEED** (Leadership in Energy and Environmental Design) certification. Novoceram is a member of the U.S. Green Building Council and the **HQE Association**, whose aim is to control the impact of a building on its environmental context and of promote a healthy and comfortable indoor living space. Finally, Novoceram has also commissioned the **PEF** (Environmental Performance Footprint) and **EPD** (Environmental Product Declaration) of its products, which indicate the potential environmental impact of a product along its entire life cycle. Our tiles are classified **A+**: the best level of this classification. Furthermore, being **completely free of volatile organic compounds emissions**, they even exceed the criteria required for classification A+.
