

KITCHEN DESTINATION

All the Novoceram Floor Collections for Kitchen.

Novoceram, french ceramics producer since 1863, presents the serie Art, for interior walls, in Colored in Body Porcelain Stoneware, proposes a broad selection of floors and tiles for kitchen.

PRESS RELEASE

Novoceram, french ceramics manufacturer since 1863, proposes a broad selection of floors and tiles in line with the current trends in kitchen design and decoration. A place for every-day life, pleasure and sharing, the kitchen is the heart of any house and it has to be both cosy and friendly. Particularly adapted to the restraints of this space, **Colored in Body Porcelain Stoneware tiles** and **Glazed Porcelain Stoneware tiles** by Novoceram are able to satisfy any decorative whim.

Novoceram Collections clothe the kitchen in all its parts, from floor to walls, through cupboard and worktop, thanks to a wide range of aesthetic solutions, from very classical to extremely modern ones, even Ceramic Wood with **Napami**, ultra-contemporary options with Concrete Effect Tiles **Azimut** and **Ciment**, imitations of trendy materials, Stone Effect Tiles with **Cast**, **Îcône** and **Samsara** or Resin Effect with **Zen** and **Vertige**. Whatever the choice, the floor is an essential element for this intended use! However, Ceramics never ceases to amaze with its endless aesthetic potential: let's consider for instance **Insert Patchwork**, for the cupboard, inspired by concrete tiles or the industrial-chic spirit of big 60x120 tiles by **Petitot** Collection.

A perfect combination of technical and aesthetic qualities, Novoceram Collections are extremely wear- and foot-traffic resistant, as well as resistant to shocks, stains and chemicals. Besides, Porcelain Stoneware is incredibly convenient for cleaning and maintainance, an essential feature in a **kitchen**! Open out directly on the dining-room or not, Novoceram Collections assure a pleasant harmony between the kitchen and all the other rooms in the house.
