

NOVOCERAM OUTDOOR PLUS

Floating floor system for exterior floors

Novoceram, French ceramics manufacturer since 1863, presents an innovative floating system for interior flooring in colored in body porcelain stoneware that can be installed easily without glue or joint.

PRESS RELEASE

Novoceram Outdoor Plus is a floating floor system in colored in body porcelain tile 20mm thick, that **Novoceram**, French ceramics manufacturer since 1863, designed for exterior floor coverings.

The **Novoceram Outdoor Plus** system allows you to easily lay down the flooring in three different ways: **traditional installation on cement screed, floating installation on gravel, sand or grass, without glue or putty, or in a raised installation.** This technique can be realized thanks to three different variety of supports: fixed, adjustable or self-leveling.

The slabs of **Novoceram Outdoor Plus** have a **structured surface** (R11-R12), they are **resistant to temperature variations** (from -50 ° C up to + 60 ° C), are **easily removable** for inspection under the support, and reusable. Even if their weight is reduced compared to that of other flooring for outdoor use (each slab weighs only 17kg), **Novoceram Outdoor Plus** can guarantee a high **resistance to breaking loads** (T11 according to EN1339) and **aesthetic and technical features unalterable in time.**

Novoceram Outdoor Plus is available in sizes 60x60cm in 12 looks **stone effect**, **concrete effect** e **wood effect** and in size 45x90cm **in Vals stone effect**.

To find out more about **Novoceram Outdoor Plus** and (re)discover all the **Novoceram** collections, please visit our **official website** or join our **Facebook page**.
