

SWIMMING POOL DESTINATION

All the Novoceram Floor Collections for Swimming pools and Spa.

Novoceram, french ceramics producer since 1863, presents the serie Art, for interior walls, in Colored in Body Porcelain Stoneware, proposes a broad selection of floors and tiles for swimming pools and Spa.

PRESS RELEASE

Novoceram, french ceramics producer since 1863, proposes a wide selection of antislip Porcelain Stoneware Tiles, besides many special trims for swimmin pools, to offer a resistant, easy to clean and beautiful covering.

The adapted **floor for pool-side and solarium** by Novoceram ensures the aesthetic continuity between not only the terrace, the pool-side and the solarium area but also between inside and outside, to create a total harmony. A broad selection of aesthetic solutions such as **Cast**, refined and precious Porcelain Stoneware Tiles inspired by Vals Stone, or **Geo, Icône**, Stone Effect floors with strong character. What about the extreme elegance of **Noa**, a Wood Effect floor which creates a naturalistic atmosphere by the pool-side, or **Samsara**, a timeless chic covering, unique of its kind? A wide range of special trims for swimming pool in **20x60**, **30x60** and **60x60** sizes: **margelle à bord rectiligne** (straight edge), **margelle à bord arrondi** (rounded edge), **angle curviligne**, **bord bend** and **grille**, to build sports and private swimming pool and Wellness Centres.

Extremely hardy, the Porcelain Stoneware Tiles by Novoceram feature technical characteristics essential to this intended use. Besides the **strong resistance to chemicals**, chlorine and salt, typically used in swimming pool and Spas, they provide incredible resistance to UV radiation. What's more, Porcelain Stoneware proves to have almost zero water absorption (0,5 % according to ISO 13006 Standard o NF EN14411 Annexe G, but actually it has a much lower value) and this leads to many other technical advantages: it is frost and moisture resistant, easy to clean and maintain. In the structuré antislip finish, all the Collections for swimming pool by Novoceram are perfectly suitable to cover the pool-side..

To learn more about the swimming pool destination and to (re)discover all the Collections by Novoceram, please visit the **Website** or the **Facebook** page.
